

Hydrocarbon-based Synthetic Oil

[What is LUCANT™?]

- LUCANT™ is liquid olefin-based oligomer.
- LUCANT™ is widely used as a viscosity modifier of lubricants.

LUCANT™ performs as an excellent defoamer

for solvent-borne and solvent-free systems especially on the urethane basis.

Air release qualities can be obtained with minimal dosage.

without LUCANT™

with LUCANT™

Urethane-based system, Dosage of LUCANT™: 0.3%

LUCANT™ is SILICONE-FREE and AROMATIC-FREE.

Detailed TDS will be prepared soon.

All references to the possible uses of our products contained in this brochure are made without any warranty, either express or implied. Nothing herein shall be construed as a representation that our products are fit for use in manufacturing finished products similar or identical to those products displayed herein or for any other purpose.

Our customers must ultimately decide on the use of our products based on their sole independent judgment without any reliance on this brochure.

Nothing herein shall be construed as permission or as recommendation for uses which might infringe valid patents. (Including patent applications), whether existing now or in the future, or as extending a license under such valid patents.

Because the conditions and methods of use on the part of our customers are beyond our control, we disclaim any liability incurred in connection with the use of our products.
